ATTACHED					
Warrant Officers	1	CWO	1	1	0

NOTE: 1 - See appendix I

BASIC: Squadron History, 12th AAF Emerg Rescue Boat Sq, for May 1945, cont'd.

2. During the month of April 1945, the following changes occured effecting organization strength.

DATE OF TRANSFER	NO TRFD	STATUS OF TRANSFER
4 April 1945	1	Assigned organization [1]
8 April 1945	1	Assigned organization [2]
9 April 1945	1	Relieved attachment [3]

3. No ordinary leaves or furloughs were granted this month as all regular leaves and furloughs have been suspended since January of this year. However, two (2) enlisted men were granted [4] emergency furloughs. No promotions, reductions or courts-martials were effected this month.

SECTION II

DIARY

4. The squadron unit at France Field, Canal Zone, was notified

NOTE: 1 - See appendix II
2 - See appendix III
3 - See appendix IV
4 - See appendix V

0 8 8 9

by squadron headquarters, on the 30th of March 1945, that a P-38 had gone down near Salud, R de P. After an exhaustive search of two days, involving three (3) of our ships, the P-188 (83'), P-257 (42'), P-170 (42'), four (4) naval vessels, a navy blimp and numerous Army and Naval aircraft, the search was abandoned. It is evident the P-38 sank immediately upon hitting the water leaving no wreckage or evidence at all.

5. On the 4th of April 1945, 1st Lt Earl C. Painter, AC, 086627, was transferred[1] into the squadron from the 30th Fighter Squadron, Howard Field, Canal Zone, to assume the duties of communications officer.

6. On the 10th of April 1945, the squadron unit at France Field, Canal Zone, was alerted again by squadron headquarters to the effect a plane had crashed in the sea north of Porto Be llo, R de P. Rescue Boat P-257 (42') was immediately dispatched to the scene of the crashed plane. Upon arriving, an empty life raft was discovered. Leaving the life raft in the water as a marker, the P-257 began circling the area, approximately five miles in diameter. Nothing more was discovered in this area and the P-257 began investigating an oil slick to the south. A tattered flying helmet and a few pieces of plywood were picked up. It was noticed that several sharks were swimming about in the vicinity of the oil slick. A search towards the northerly end of the oil slick was started.

NOTE: 1 - See appendix II

Aircraft log sheets and an oily rag were the next bits of evidence retrieved from the water. By this time the fuel supply was dangerously low although an extra drum of gas had been put aboard before the P-257 left the base. Permission was requested of Bingo to return which was granted at 1555. After six hours and ten minutes of fruitless searching the p-257 returned to its base.

7. Sometimes aircraft on patrol will report evidence of a crash that proves to be a mirage or an optical illusion, as in the case of the P-188 (83') when she was ordered out on the 21st of April 1945 to investigate an "oil slick" in the vicinity of Taboga Island in Panama B ay. Upon being directed to the area by aircraft, the P-188 discovered no oil slicks there or nearby. The only explanation is that, from certain altitudes, wind slicks can easily be mistaken as oil slicks.

8. A squadron beer party was held on the 28th of April 1945 on the roof gardens of the Atlas Brewery Company in Panama City, R de P. Special permission was obtained for this event which proved to be an outstanding success. It was planned on holding the party two (2) weeks earlier but the news of the President's death came as such a shock to all that in respect to his memory it was postponed.

9. On the 26th of April 1945, the six (6) gasoline barges assigned the organization were transferred to the Area Transportation Division, Quarry Heights, Canal Zone. The history as to how we ob-

tained these barges is somewhat obscured as no definite assignment orders or shipping tickets were ever found. It was just a case of waking up one morning to find aviation gasoline barges in the organization and the only thing to do was to crew them. Although the work aboard these barges was extremely dangerous due to the ever present fumes from the one hundred (100) octane gas, the barge personnel and barges achieved a commendable record of performance in supplying outlying bases with aviation gasoline.

10. Due to the area around Isle Grande, R de P, being designated as an aerial gunnery and bombing range and increased flying activity in that immediate vicinity, it was decided to station a forty-two (42') foot crash boat there. This would eliminate the two (2) to three (3) hours required to reach this location in the event of a crash there. An Air Warning Station is located on Isle Grande, so it was simple matter to ration and quarter the crew with this unit. Periods of duty for these craft is of one (1) weeks duration, with the P-170 (42') alternating with the P-257 (42').

		Pvt	6	3	3

NOTE: 1 - See appendix I, pages 1 and 2

BASIC: Squadron History, 12th AAF Emerg Rescue Boat Sq, for May 1945, cont'd.

2. During the month of May 1945, the following changes occured effecting organization strength.

DATE OF TRANSFER	NO TRFD	STATUS OF TRANSFER
7 May 1945	2	Relieved Assignment [2]
14 May 1945	32	Assigned Organization [3]
14 May 1945	49	Relieved Assignment [4]
17 May 1945	1	Relieved Assignment [5]
20 May 1945	1	Relieved Assignment [6]
21 May 1945	1	Relieved Assignment [7]
21 May 1945	1	Assigned Organization [7]
25 May 1945	10	Assigned Organization [8]

3. Two (2) emergency leaves and three (3) emergency furloughs were granted [9] during May 1945. Twenty-five (25) enlisted men were promoted [10]. No reductions or courts-martials were effected this month.

SECTION II

DIARY

4. Forty-nine enlisted men were reassigned to the United States

NOTE: 2 - See appendix II
3 - See appendix III
4 - See appendix IV
5 - See appendix V
6 - See appendix VI
7 - See appendix VII
8 - See appendix VIII
9 - See appendix IX
10 - See appendix X

and departed this organization on the 14th of May 1945. This by far constitutes the largest group to leave for reassignment at one time. The smiles these men displayed and their beaming joyous faces are difficult to capture on paper. For some, it meant their first visit home in over three (3) years.

5. The radio operator on duty in the organization control room, received word by radio of two (2) boys being missing in Panama Bay. Crash Boat P-634 (63') which was standing by at Pier # 1 was immediately notified and dispatched to that area. However, after a vain search of Panama Bay for eight (8) hours, the P-634 returned to the Pier and was relieved by the P-130 (42'). The search proved fruitless and after a extensive patrol, the boats were recalled to their proper stations.

6. On the 24th of May 1945, the radio operator of the P-18 (37') stationed at David R de P, while preparing for his morning radio check, over-heard messages regarding a B-24 overdue at the Base. The Master of the P-18 immediately checked with Base Operations and the message was confirmed. Preparations to get underway were started and the ship left at 0755 after the Medical Officer came aboard. At 1205 a message was received informing the Master, to proceed to 8° N 82° 30' W. Immediately after, planes were sighted circling low over the water, north of this position. Upon approaching this area a life raft with one person in it was sighted. As events later proved, this was the only survivor of the crash. He was T Sgt John A. Balis, ASN 6667818, who stated he had been swimming for eight (8) hours before a plane dropped him a life raft.

Further searching proved fruitless and the P-18 returned to its Base, due to high seas arriving at 2000.

7. On the 27th of May 1945, two of our vessels, the P-94 (104') and the P-634 (63'), were dispatched to the Atlantic Side to participate in the Nullus problem. Some of the crew aboard these vessels were new in this area and it was somewhat of an experience for them, which is cause for a great deal of conversation among them around the barracks.

8. On the 30th of May 1945, the P-257 (42'), operating out of Isla Grande, while on the Nullus problem, was alerted at 1030 to proceed to a given area, where a plane had gone down. The P-257 arrived at the scene of the crash one hour later and proceeded in searching the area thoroughly. One oxygen tank, radio books, pieces of wood and rubber, and part of fuel tank were retrieved. Further searching was in vain and it was decided the Pilot had gone down with his plane. The P-257 then returned to Isle Grande.

9. On the morning of the 30th of May 1945, at 0816, word was received by the Squadron Commander, to the effect of a full alert at this Base. Immediate steps were taken to inform all personnel and at 0830 the complete organization was operating under full alert status. Guards were posted at their respective place of duty and all crews aboard ship stood by in case of an emergency call. The organization remained on a full alert status until 1030, the 31st of May 1945.

BASIC: Squadron History, 12th AAF Emerg Rescue Boat Sq, for June 1945, cont'd.

DIARY

4. On 3 June 1945, word was received at Squadron Headquarters located at Albrook Field, to the effect that Sgt George D. Foley, of this organization had fallen overboard from one of our vessels located at France Field, and was accidently drowned. Four boats which were at the Pier, at the time of the accident, were immediately dispatched to the scene of the accident and an extensive search began to locate the body. The Navy worked in conjunction with the Army and within a short time Sgt Foley's body was found. Everything known to Medical Science was used to restore life to Sgt Foley, but to no avail. Sgt Foley, was a member of this organization of long standing and his death came as a sudden shock to his many friends. A full military funeral was accorded Sgt Foley and the chapel was filled to its capacity with his many Officer and Enlisted friends. There were many floral pieces in evidence from the organization as their last gift to a friend and comrade.

On 7 June 1945, Mr Stewart, CWO in charge of our vessels at France Field, received a call from the Navy station at Coco Solo at 1215, stating that a Navy plane had gone down six (6) miles west of Fort Sherman. Immediately upon notification, the P-634 (63') Crash Boat of this organization was underway and headed for the crash area. Upon arrival at the scene of the crash, the crew aboard the P-634 found a Navy PBY plane floating helplessly in a rough sea. Finding the crew members of the plane safe, steps were taken to return the plane to its base at Coco Solo. It was decided upon to tow the plane by means of a tow line from the Crash Boat to the plane. This procedure was dangerous due to the very high sea that existed at the time, but with careful handling and manuvering of the boat by skilled hands, a

BASIC: Squadron History, 12th AAF Emerg Rescue Boat Sq, for June 1945, cont'd.

tow line was made fast to the plane and the long slow journey to the Base began. Upon arrival at the Base the plane was t aken over by the Navy. This is believed to be the first rescue of its kind where an Army Crash Boat has towed a Sea-Plane on water to safety.

On 14 June 1945 at 0850R, Sgt Hyde and Cpl Miller of this detachment witnessed the crash water landing of a C-64A plane at APO 831 with the following personnel aboard. Colonel Taylor, Major Walker and Cpl Goad. In crashing the plane bounced off the water twice and on its third bounce, arose into the air and flipped over on its left wing. The J-638, Rescue Boat was immediately dispatched from France Field boat house piloted by Cpl Schneider and proceeded to the scene of the crash with the P-257 following. In about 3 minutes the P-638 arrived at the accident and found that the only survivor above the water was Cpl Goad who was picked up by the crew aboard the J-638 and immediately returned to the deck for medical attention. He was found in a dazed condition.

Captain Schultz (Medical) and CWO Stewart returned to the crash area in the J-638 bringing with them diving equipment. Upon reaching the area, it was found that a Navy boat had also made fast to the wreckage and one of their men, using a diving helmet was trying to free two bodies remaining in the plane. Our diving equipment was of no use as it was necessary to crawl down the fuselage of the plane. The men on the P-257 had previously tried to use fire axes in cutting their way into the bottom of the fuselage but this was not successful. Major Walker's and Colonel Taylor's bodies were recovered and artificial respiration was immediately started by Captain Schultz and CWO Stewart. Time of recovery of Major Walker's body was 0907 and Colonel Taylor's body was recovered at 0915.

BASIC: Squadron History, 12th AAF Emerg Rescue Boat Sq, for June 1945, cont'd.

At 0920 both officers were taken back to the boat house, placed in an ambulance and taken to the hospital while still undergoing artificial respiration. At 0930 they arrived at the hospital and at a later time were pronounced dead by Medical authorities.

A Navy salvage barge began working on the plane to salvage it from the water. After the plane was lifted aboard the barge, with Lt Hansen, USN, in charge, the barge was guided back into the harbor by S Sgt Swanz under the guidance of CWO Stewart. The wrecked plane was taken to the Base Engineering on trucks and Captain Sneider, Base Engineering Officer, took charge of the wrecked plane at 1100R.

On 23 June 1945 at 1015 a call was received at France Field Boat house from base operations stating a plane had crashed at Manzamille Point and the pilot, Lt Atkinson, flying the crashed P-40 was swimming in the water. Immediately the P-257, at Isle Grande, was notified and given instructions to proceed to the crash area and the P-221 would intercept them on their return to the base.

At 1020 the P-221 departed from its location with a Medical Officer on board and at 1050 received position report from P-257 stating that the pilot had been rescued and was alright. At 1150 rescue boats met at position designated and the pilot was transferred from P-257 to the P-221 for return to the base. At 1325 the rescue boat arrived at the boat house and the pilot was sent to the hospital with a small cut on his forhead.

On 26 June 1945 at 0330R CWO Miller, Officer in charge of Rio Hato boat house, notified Major W.A. Sears, CO of this organization, that a Panamanian barge was turned over at Chase Point and two black Panamanian

BASIC: Squadron History, 12th AAF Emerg Rescue Boat Sq, for June 1945, cont'd.

men were trapped inside the barge. Acetylene and oxygen cylinders and a cutting torch were picked up from Base Engineering and loaded aboard the P-634 rescue boat at Pier # 1. The rescue boat departed Pier # 1 at 0445 and arrived at the seen of the wreck at 0615. At 0640 cutting equipment was put aboard the wrecked barge, and rescue of the men was begun. Difficulty was witnessed in cutting through the side of the barge due to the water washing over the barge and barnacles. At 0725R the first man was removed from the area of the stern, wrapped in blankets and placed in a litter. At 0740R the second man was removed, wrapped in blankets and placed on a litter. The two men and cutting equipment were put aboard the P-634 and the rescue boat departed the scene for the base. While enroute to the base the men were given medical attention in the ships dispenary and made as comforable as possible. Neither man seemed to be in serious condition although both of them seemed completely exhausted. At 0925 the rescue boat arrived at the pier and the two men were put in an ambulance taken to the Amador Clinic and were later transferred to the Gorgas Hospital for examination.

BASIC: Squadron History, 12th AAF Emerg Rescue Boat Sq, for June 1945, cont'd.

Special Court-Martial
Orders No. 25

26 June 1945

Before a special court-martial which convened at U. S. Army Air Base, APO No. 825, pursuant to paragraph 1, Special Orders No. 137, this headquarters, 24 June 1945, was arraigned and tried:

Private Joseph Guarino, 32230181, 12th Army Air Forces Emergency Rescue Boat Squadron.

Charge I: Violation of the 69th Article of War.

Specification: In that Private Joseph Guarino, 12th Army Air Forces Emergency Rescue Boat Squadron, having been duly placed in arrest at the Limits, Canal Zone, on or about 16 June 1945, did, at the Limits, Canal Zone, on or about 16 June 1945 break his said arrest before he was set at liberty by proper authority.

Charge II: Violation of the 96th Article of War.

Specification 1: In that Private Joseph Guarino, 12th Army Air Forces Emergency Rescue Boat Squadron, did, at the Limits, Canal Zone, on or about June 16, 1945 wrongfully strike Private First Class William C. Cornelius, 760th Military Police Battalion, on the face with his fist.

Specification 2: In that Private Joseph Guarino, 12th Army Air Forces Emergency Rescue Boat Squadron, was at the Limits, Canal Zone, on or about June 16, 1945 drunk in uniform in a public place, to wit, the Limits, Canal Zone.

PLEAS

To all the specifications and the charges: Not Guilty.

FINDINGS

Of Specification 1 of Charge I:	Not Guilty.
Of Charge I:	Not Guilty.
Of Specification 1 of Charge II:	Guilty.
Of Specification 2 of Charge II:	Not Guilty.
Of Charge II:	Guilty.

SENTENCE

To be confined at hard labor at such place as the reviewing authority may direct for three (3) months and to forfeit thirty dollars ($30.00) of his pay per month for three (3) months. (Evidence of one previous conviction considered.

The sentence was adjudged on 25 June 1945.

In the foregoing case of Private Joseph Guarino, 32230181, 12th Army Air Forces Emergency Rescue Boat Squadron, the sentence is approved and will be duly executed. The Guard House, Camp Empire, Canal Zone is designated as the place of confinement.

DIARY

4. On 14 July 1945, word was received at this headquarters, to the effect that one of our Crash Boats stationed at David, R de P, had exploded, namely the P-18. At the time of the explosion, the crew members had the boat out on regular patrol duty in that area. When the fire became out of control, the crew was forced to abandon ship. The crew suffered minor injuries and were treated for shock and burns. At the present time, the cause of the explosion has not been determined. The P-18 was one of the smaller craft assigned this organization, being thirty-six (36) feet in length, but it was considered the Flag Ship of the organization by all crew members, due to the fact, that it was the first vessel assigned this organization. Since its assignment, it had seen active duty up and down the coast of the Isthmus from David to Jaque, participating in Rescue Missions and evacuations. It had weathered all types of sea while in commission and had on one occasion been lost at sea for several days, before it was located with its crew members out of food and water. To the crews that manned this sturdy little vessel in the past and the present, it will remain in their memory as being one of the most sea-worthy vessels on the Isthmus.

On 18 July 1945, eight (8) men of this organization, namely, 1st Lt Paul H. Gibson, CWO William J. Stewart, T Sgt Marshall C. Wicker, S Sgt Neil R. Messick, Sgt Robert A. Meredith, Sgt Robert L. Sherry, Cpl Ray V. Carr and Cpl Raymond E. Oglesby received orders placing them on temporary duty at Ft. Lauderdale Fla, in connection with Army Activities.

BASIC: Squadron History, 12th AAF Emerg Rescue Boat Sq, for July 1945, cont'd.

The main purpose of sending these men on temporary duty to the states, was to accompany four (4) new Rescue Boats to this area, and tc familiarize our men with the new equipment that is aboard these boats. They in turn would be able to teach the rest of the men in the organization the fundamentals of this type vessel.

On 25 July 1945, Rescue Boats P-188, P-634 and Q-57 and crews departed for France Field, CZ to assume standby and patrol duties at sea for the coming Nullus problem.

At 0510, 26 July 1945 information was received at this headquarters that a modified full alert was in force. Immediate steps were taken and the organization was on a full alert status with guards posted and all boats alerted.

On 27 July 1945 the squadron was put on a normal alert status and all boats were ordered back to their respective bases. Upon return of the Boats that were dispatched to France Field on the Nullus problem the crew members related stories of the high seas which they encountered and stated that very few crew members weathered the trip without becoming sick at one time or another. The P-188 began taking on water and all crew members were busy pumping sea water from the boat. No radio contact could be made immediately with the P-188, but later word was received that it was returning to its base.

On 29 July 1945 at approximately 1535R a call was received from Bingo that a Navy plane had crashed into the water while attempting to land on an aircraft carrier. The P-634 (63') Crash Boat was immediately dispatched and arrived at the scene of the crash, approximately 10 miles southeast of Guard Ship (Pacific Side) in about forty (40) minutes. The P-634 was ordered to

BASIC: Squadron History, 12th AAF Emerg Rescue Boat Sq, for July 1945, cont'd.

return to its base, by Bingo, when there was no sign of the crash to be found. Enroute to base, the P-634 was re-ordered to sea, too continue search of crash marker. Belly tank of plane was recovered by P-634 and it was ordered back to its base. Bingo was notified later that the plane had crashed at approximately 1000 that day and the aircraft carrier was not able to recover pilot or ship. Carrier dropped sea marker and continued on its course, notifying Bingo at about 1525 that the plane had crashed.

BASIC: Squadron History, 12th AAF Emerg Rescue Boat Sq, for July 1945, cont'd.
